BIG SKY DISCOVERY ACADEMY

Discover Your Potential

Elementary Montessori children are ready and willing to learn abstract principles. We provide an environment where a child is able to work at their own pace in a non-competitive environment, to gain an understanding of themselves. Children will work alone, in small groups and as a community. In this atmosphere, children develop courtesy and respect for themselves and to others.

Montessori teachers focus a great deal of individual attention on children. While in groups, older children share their knowledge and help younger children become excited about learning. Big Sky Discovery Academy is staffed with qualified teachers with a low student to teacher ratio.

As a child becomes familiar with the expectations in a Montessori classroom, they develop a sense of internal order helping them navigate through the multitude of decisions they make on a daily basis.

-Maria Montessori
